AMBASSADOR HOUGHTON ARRIVES IN GERMANY

COBLENZ, April 19.—Alanson B. Houghton, newly-appointed ambassador to Germany from the United States, arrived in Coblenz today. He will visit Gen. Henry T. Allen, commander of United States troops on the Rhine.

MEDBURY

Says According to Most Men They Could Be
President of the United States Only They
Don't Like to Live in Washington.

By John P. Medbury.

Most people think that a man who talks about himself is conceited, but he's not. How are you going to know he's a great man if he doesn't tell you?

He's got to tell you how handsome he is, because you probably couldn't guess it by looking at him.

Why let somebody else blow your horn when you've got plenty of wind yourself.

According to most men, they could be President of the United States, only they don't like to live in Washington.

They'd set the world on fire if they weren't afraid of being arrested for arson.

One guy was so crazy about himself he remained a bachelor. He shuddered at the thought of sharing himself with anybody.

He remained single because he liked to talk. He didn't want to get married and have to listen.

He used to go into a canyon and talk out loud about himself and then listen to the echo.

An echo can never have any-

thing for you except praise, especially if it's your own echo.

Another guy thought he was so great he told his mother it was a pity that he wasn't twins.

This same guy sends his mother a telegram every year congratulating her on his birth.

But he's not in favor of birth control. He figures there couldn't possibly be born another man like him.

He admits George Washington was a great man, but that was before his time.

He's so proud of his own name that he has his calling cards printed on both sides.

There's only one place where there's anybody near his equal and that's in his mirror.

Once he got sore at the women in his town and he punished them by keeping out of their sight for a week.

There are a lot of us who'd like to parade our virtues but it takes too many to make a parade.

Human flesh is heir to many ailments, but aside from the acute and contagious diseases, most people become sickly from neglect. They have indigestion and do nothing for it. They get nervous and often sleep poorly and do nothing to cure themselves. From these and other causes they gradually lose strength and vitality and feel tired much of the time and often "blue" and despondent. If you feel below par take Gude's Pepto-Mangan and let it restore your strength and vitality and overcome that weakness by building up your blood to the right richness and redness. Then you will feel fine and vigorous again, and have plenty of "pep." For thirty years Gude's Pepto-Mangan has been the doctor's favorite tonic for run-down people. Sold in both liquid and tablet form by all druggists.

Exide BATTERIES

When your battery
says: "I'm through"

There will come a time when your battery—even if it is an Exide—must be replaced.

How will you acquire a new one—by simply calling at the nearest place where batteries are sold, or by getting one for the least money possible? Or will you automatically buy another of the same kind that has just worn out?

Or, realizing how much a battery means to your comfort, will you be sure to get an Exide and let it give you its sturdy power through a long life of ungrudging service?

There is economy in buying an Exide Battery, because it lasts so much longer than others. Ruggedness is built into it, so the battery spends its time in your car instead of in the repair shop.

When you must have a new battery or when your present one needs help, do yourself the justice of stopping at the nearest Exide Service Station.
